CAREER OPPORTUNITY

Working Student (m/f/d)

Business Development & Market Analysis

LOCATION	HOURS	CONTRACT TERM	SALARY
Düsseldorf	max. 19 hrs/week	6 months	€16 / hour

Your team

The position is based in the First Basic Chemicals Department. The department markets and distributes chemical raw materials and develops new business opportunities across Europe. Its focus is on basic chemicals and solvents. Working closely with international manufacturers, customers and logistics partners, the team actively contributes to the entire value chain. Activities range from market analysis and business development to sales and procurement, as well as the development of efficient supply chain and logistics solutions.

Your tasks

- Support market, competitor and portfolio analyses, as well as research on products, customers, suppliers and market trends
- Prepare, analyse and evaluate market and business data to support decision-making processes
- Contribute to the development of new business opportunities and the introduction of new products
- Support the optimisation of sales, procurement and supply chain processes
- Prepare product, market and management presentations
- Maintain and update customer, product and logistics overviews
- Translate and present chemical and business-related topics in a clear and understandable manner
- Support projects related to sustainability, circular economy and emerging technologies
- Use digital tools and AI applications for research, data analysis and process improvement

Your qualifications

- Ideally, you are in the final stage of your Bachelor's degree or already pursuing a Master's degree in Business Chemistry, Business Administration, Economics or a comparable field of study
- Interest in the chemical industry, international markets, as well as supply chain and sales-related topics
- Excellent German and English language skills, both written and spoken
- Proficiency in Microsoft Office applications, particularly Excel and PowerPoint
- Strong analytical skills and an interest in analysing and presenting data and information in a clear and understandable manner
- Independent, reliable and conscientious working style
- Enjoy working in an international environment

Your benefits at Mitsui

- Flexible working hours and flexible remote work (up to 1 day per week)
- Holiday and Christmas bonuses as well as meal allowance
- Mobility allowance (e.g. public transport, where no university-provided student ticket is available)
- Access to discounted fitness programmes and employee benefits
- Regular team events and company functions
- Fresh fruit, a table tennis table and a massage chair available in the office

About us

Mitsui & Co. is one of the world's leading trading and investment companies, with a global network spanning 62 countries and regions. Guided by our vision of **"Building brighter futures, everywhere"**, we develop and support businesses across a wide range of industries.

In Germany, our business activities focus particularly on **chemicals and plastics, steel, infrastructure projects and mobility**. From our Düsseldorf office, we work closely with customers, business partners and colleagues across our international network.

As a working student, you will support a specific department in its day-to-day business and contribute to clearly defined tasks and projects. This gives you the opportunity to apply your academic knowledge in practice, gain valuable professional experience and become part of an international working environment shaped by our guiding principle: **"Challenge and Innovation".**

HOW TO JOIN US

Send your application in English, including your CV, certificates, and – if available – references from internships or part-time jobs, via email. In addition, please briefly tell us why you would like to join Mitsui and what excites you about this position.
