CAREER OPPORTUNITY

Working Student (m/f/d)

Regulatory Affairs / REACH Administration

LOCATION	HOURS	CONTRACT TERM	SALARY
Düsseldorf	max. 19 hrs/week	12 months	€16 / hour

Your team

The position is based in the Logistics Strategy Department. The department manages and monitors trade compliance and logistics-related risks, while providing logistics solutions and logistics intelligence. Through these activities, it supports Mitsui & Co.'s business departments and affiliated companies in conducting efficient and compliant trading operations. We are looking for a motivated student who would like to gain practical experience in Regulatory Affairs and learn more about the EU Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH).

Your tasks

- Supporting the handling and preparation of REACH-related requests from our business departments
- Collecting, reviewing, and organizing information in our internal systems
- Verifying the completeness of documentation using established checklists and procedures
- Assisting with the monitoring of regulatory developments
- Maintaining and updating data in the regulatory software applications PubliChem and ExESS
- Helping to structure and organize regulatory product information
- Assisting in sharing relevant regulatory requirements internally in coordination with the REACH Specialists

Your qualifications

- Ongoing studies in Chemistry, Biochemistry, Environmental Sciences, Industrial Engineering, Law, Sustainability Management, or a comparable field
- Interest in chemicals-related European regulatory affairs; previous knowledge of REACH or Regulatory Affairs is beneficial but not required
- Very good German and English skills, both written and spoken
- Structured, detail-oriented, and reliable working style, combined with strong communication skills and confidence when interacting with various stakeholders
- Confident use of Microsoft 365 applications; knowledge of Power BI and Power Automate is an advantage
- Enjoy working in an international and diverse team environment

Your benefits at Mitsui

- Flexible working hours and flexible remote work (up to 1 day per week)
- Holiday and Christmas bonuses as well as meal allowance
- Mobility allowance (e.g. public transport, where no university-provided student ticket is available)
- Access to discounted fitness programmes and employee benefits
- Regular team events and company functions
- Fresh fruit, a table tennis table and a massage chair available in the office

About us

Mitsui & Co. is one of the world's leading trading and investment companies, with a global network spanning 62 countries and regions. Guided by our vision of **"Building brighter futures, everywhere"**, we develop and support businesses across a wide range of industries.

In Germany, our business activities focus particularly on **chemicals and plastics, steel, infrastructure projects and mobility**. From our Düsseldorf office, we work closely with customers, business partners and colleagues across our international network.

As a working student, you will support a specific department in its day-to-day business and contribute to clearly defined tasks and projects. This gives you the opportunity to apply your academic knowledge in practice, gain valuable professional experience and become part of an international working environment shaped by our guiding principle: **"Challenge and Innovation".**

HOW TO JOIN US

Send your application in English, including your CV, certificates, and – if available – references from internships or part-time jobs, via email. In addition, please briefly tell us why you would like to join Mitsui and what excites you about this position.
