

Student Project Coordinator – Service Desk

Join us in making a difference

Our Service Desk team is looking for a team player to coordinate projects and tasks within our Backend Engineering function in Hotel Search. In this role, you'll be responsible for the data update operations and excursions with requests from stakeholders across the company. You'll develop your project coordination skills by collaborating with our product owners and managing projects with external companies.

If you're eager to learn and grow in an environment where no two days are the same, we want to hear from you!

How you'll make an impact:

- Manage our content service desk (the platform where trivago talents report content issues to the Content teams)
- Perform quality assurance of accommodation information to ensure that we only show high-quality content
- Support other project managers/product owners on relevant initiatives (ideas come from everywhere!)
- Manage projects with external companies and provide ongoing feedback to ensure that project goals are met within set guidelines

What you'll learn:

- How to sharpen your time management and project management skills
- How to collaborate within a dynamic and international team
- How a data-driven company works internally and how decisions are made

What you'll need to thrive:

- Excellent communication skills to manage interactions with stakeholders and external companies
- Attention to details for spotting inconsistencies in our content
- Good organizational and management skills to effectively manage varying tasks
- A positive attitude and the eagerness to work and learn quickly in a lively, multicultural environment
- Be currently enrolled as a student in a University in Germany and residing within commutable distance to our main office in Düsseldorf
- Capacity to work 20 hours a week for at least 1 year
- A valid EU working visa
