Figures, 2016

# Our services to international students

---

The Université de Nantes has a long experience in welcoming international students. We offer:

- A personalized student welcome service at the *Guichet Unique* to help with administrative formalities: visa application, residence permit, registration and enrollment, housing aid, insurance...
- Dedicated staff to assist international students during their stay.
- Online course catalogue available to exchange students.
- Free of charge French support classes offered twice a week (4h total) and one intensive week at the beginning of the school year for exchange students.
- Social and intercultural activities with the Erasmus Student Network-Nantes association.

# A Dynamic Student Life

---

- Strong support to student associations and activities through dedicated funding.
- A Student Life Center - *le Pôle étudiant* located in the heart of campus. It welcomes throughout the year concerts, exhibitions, debates, film projections, theatrical performances as well as student associations' meetings and duty hours.
- A cultural policy built on the values of openness, curiosity and diversity.
- One of the leading universities in high-level sport competitions.

**150** Student associations

**150** events organized each year by our student organizations in Nantes, La Roche-sur-Yon and Saint-Nazaire

**200 000 €** of financial assistance per year for student-led projects

**More than 50** sporting activities

**9** Competitive teams

*Figures, 2016*

# An exceptional place to study and live

---

- 5 main campuses along the Erdre river, north to south of the Nantes metropolitan area.
- One campus situated on a wooded area and largely served by public transportation.
- High quality infrastructure, with 424 500 m<sup>2</sup> representing 115 buildings and located on 12 sites
- An ambitious “Agenda 21” policy promoting sustainable development in accordance with the objectives set up by the “*Grenelle de l'Environnement*” national policy.

# A university rooted in the city and the region

---

## A strong commitment to its territory and community

- Transfer of research activities and technologies into the socio-economic fabric of the city.
- A strong policy of cooperation with other actors in the *Pays de la Loire* Region and neighboring regions.
- Active participation in the entertainment and cultural life of citizens.
- Organization and promotion of many scientific events destined for the general public, schools and the scientific community.
